

MaxPlus
MTP Cooler 2.0®
Storage + Transport
- with -
Maxify
Technology

NEW All-in-one Massive Transfusion Protocol Cooler
Holds pRBCs, Thawed Plasma and Platelets in one, easy to
pack, cooler.

Validated up to 12 hours

This Cooler transports blood products safely from the OR/ER to transfusions, trauma packs, STAT blood and bedside storage. This dynamic cooler stands up to in-hospital use, STAT transport, transfusion deliveries and more. All with no special handling or bench-time conditioning.

**With Enhanced Infection
Control Compliance**

- One cooler replaces up to 3 coolers for each MTP request
- Updated platelet pouch design for optimal thermal performance
- Highly durable, long-lasting and easy to clean/disinfect
- Retractable handle and wheels
